Neuromodulation: Technology Changing Lives

May 27 – June 1 2017

Edinburgh, Scotland

Pain Research & Neuromodulation in Scotland

Wednesday 31st May 14.30 – 16.00

EICC Edinburgh International Convention Centre

14.30 – 14.35 Introduction

Roger Strachan (Moderator) *Consultant Neurosurgeon, James Cook University Hospital, Middlesbrough & Past President NSUKI*

14.35 – 15.05 Strategies for the reversal of hypersensitivity in chronic pain

Professor Sue Fleetwood-Walker *Chair of Sensory Neuroscience Centre for Integrative Physiology, Edinburgh Medical School: Biomedical Sciences*

& Rory Mitchell *Senior Lecturer, Centre for Integrative Physiology, Edinburgh Medical School: Biomedical Sciences*

15.05 – 15.30 Can we use clinical biomarkers to individualize pain treatment?

Professor Lesley Colvin *Consultant/Hon Professor in Anaesthesia & Pain Medicine, Dept of Anaesthesia, Critical Care & Pain Medicine, University of Edinburgh & Western General Hospital, Edinburgh*

15.30 – 15.40 MDT assessment: evolution of the Glasgow Neuromodulation service

Dr Andrew Crockett *Consultant in Anaesthesia and Pain Management, Glasgow Royal Infirmary & New Victoria Hospital, Glasgow*

15.40 – 15.50 Multidisciplinary Team Working: From theory to practice

Dr Saravana Kanakarajan *Consultant in Anaesthesia & Pain Medicine Aberdeen Royal Infirmary & Honorary Associate Applied Medicine, University of Aberdeen*

15.50 – 16.00 Discussion & Conclusion

A tremendous opportunity for all the clinicians in Scotland with an interest in Chronic Pain and Neuromodulation therapies to meet and converse together, and for all attendees at the INS meeting to gain some insight into chronic pain research and practice in Scotland.
