Thursday, 13 June 2013

Morning Concurrent Sessions

	Breakout 1 Cancer Pain 2013: Challenges and Opportunities Moderator: Allen W. Burton	Breakout 2 Brain Neuromodulation Emerging Therapies Moderator: Michel Prudhomme	Breakout 3 Gastrointestinal Disorders Moderators: Thomas Abell and Jiande Chen
0800-0815	Palliative Medicine and Pain Control: Does the WHO Ladder Have Relevance in 2013? Sam Ahmedzai	Optogenetics and Neuromodulation Jaimie Henderson	Temporary Gastric Stimulation: Use of Electrical Stimulation for Upper Gut Symptoms of Diverse Etiologies Tom Abell
0815-0830	The Role of the Interventional Physician in Cancer Pain Lisa Stearns	DBS Sensing and Feedback Systems Kendall Lee	Gastric Electrical Stimulation: Use in Patients Not Ordinarily Given Stimulation Therapies Hans Tomblom
0830-0845	Chronic Cancer Pain, a New, Difficult Clinical Problem Allen Burton	DBS for Hypertension Nik Patel	Stimulation of the Upper Gut for Obesity Abeezar Sarela
0845-0900	Use of Intrathecal Drug Algorithms in the Treatment of Cancer Pain Timothy Deer	DBS for Traumatic Brain Injury Ali Rezai	Neuromodulation for Lower GI Disorders Anton Emmanuel
0900-0915	The Challenges of Interventional Pain	DBS for Obesity Michael Oh	Use of Upper Gastrointestinal

	Research in Cancer Pain Arun Bhaskar		Stimulation for Children with Multiple Conditions Chris Jolley
0915-0930	Difficult Cases in Cancer Pain: Lessons Learned Allen Burton	Neuromodulation for Persistent Vegetative State and Minimally Conscious State Takamitsu Yamamoto	GI Neuromodulation: Science or Fiction? Perspective on the Current and Future Uses in the Gut Jiande Chen
0930-1000	Discussion	Discussion	Discussion
1000-1030	<i>BREAK</i>		
1030-1130	Free Oral Poster Presentations on Pain Moderator: Allen W. Burton	Free Oral Poster Presentations on the Brain and Pain Moderator: Michel Prudhomme	Free Oral Poster Presentations on Gastrointestinal Disorders and Pain Moderators: Thomas Abell and Jiande Chen
1030-1040	Ziconotide Single Shot Trial and Subsequent Dosing for Cancer-Related Pain Brian Bruel	A Prospective Comparative Study of the Specify-565 versus 2 (1x8) Octapolar Leads in Treatment of Chronic Low Axial Back Pain from Failed Back Surgery Syndrome Krishna Kumar	Electrical Stimulation Therapy (EST) of the Lower Esophageal Sphincter (LES): an emerging therapy for refractory GERD; Preliminary Results of an International Multicenter Trial Edy Soffer
1040-1050	Estimating the diagnostic need for Magnetic Resonance Imaging (MRI) in a UK neuropathic pain population of patients with spinal cord stimulation systems Shanti Thavaneswaran	Spinal Cord stimulation for chronic neuropathic pain (FBSS and NP)- long term systematic outcome review Jibril Osman Farah	Chronic Effects of Adjustable Gastric Electrical Stimulation(aGES) on the Food-intake and Body Weight of Beagle Dogs Yan Mei Li
1050-1100	Disparities in Magnetic Resonance Imaging (MRI) Utilization in the US General Population, Spinal Cord Stimulator-Indicated, And -Implanted Patients Mehul Desai	Subcutaneous stimulation as an additional therapy to Spinal Cord Stimulation for the treatment of low back pain and leg pain in Failed Back Surgery Syndrome: four year follow up Tanja Hamm-Faber	Inhibitory effects of gastric/duodenal electrical stimulation on food intake and body weight: a comparative study in rats Yong Lei
1100-1110	An Exploratory Pilot Study of Intra-Thecal Spinal Cord Stimulation (IT-SCS): Implications for	Burst Spinal Cord Stimulation evaluated in patients with failed back surgery syndrome and	Therapy of chronic pancreatitis pain after swine influenza (H1N1) with spinal cord

	the future management of chronic pain Jonathan Choi	painful diabetic neuropathy Sven Vanneste	stimulation Peter Lierz
1110-1120	Neurophysiology of the dorsal root ganglion (DRG): A translational premise for neuromodulation in the treatment of chronic pain Katja Burger	Treatment of the back pain component of failed back surgery syndrome (FBSS) by multi-column spinal cord stimulation: A multicentre prospective study Olivier Monlezun	Preoperative Ultrasound-Guided Mapping of Peripheral Nerves Michael Gofeld
1120-1130	Reproducibility and feasibility of burst stimulation: preliminary results Anders Wahlstedt	CONUS-CAUDAL Stimulation in the treatment of complex pain in the patients affected by Failed Back Surgery Syndrome Claudio Reverberi	Epidural radiofrequency stimulation of dorsal root ganglia: a preliminary report on a new technique Giuseppe Calcarella
1140-1215	Critical Evaluation of Non-Invasive Brain Stimulation for Chronic Pain and Other Less Invasive Neuromodulation Therapies Turo Nurmikko		
1215-1250	Cancer Survivorship: An Increasing Challenge TBD		
1250-1300	Congress Closing Address Simon Thomson, INS President and Congress Chair		
1300	- Congress Adjourns -
