DEAR COLLEAGUES AND FRIENDS

It is our great pleasure to invite you to the

**11th annual conference of the German Society of Neuromodulation
Düsseldorf, Germany from 11th – 12th November, 2016.**

Since the last year the neuromodulation field has witnessed considerable advancements and innovations prompting for updates, especially in Deep Brain Stimulation and new stimulation paradigms. Regarding the program structure we have maintained the successful concept of a state-of-the-art coverage of SCS and DBS ranging from clinical experiences and basic mechanisms, electrophysiology and imaging, established and on Saturday emerging clinical applications in SCS, DRG, PNS, indications like epilepsy, neuropathic and nociceptive pain but also neuropsychiatric diseases, to ethical aspects and future directions, paradigms and wave forms.

These topics will be started with a plenary lectures, followed by oral communications and lunch break poster presentations. To further enhance interactions and discussions among the participants we have included company sponsored lunch and pre-dinner symposia, which will provide us with the latest technological innovations in the field.

As a pre-congress workshop we are happy to invite you to an outstanding one day SCS workshop which will be held under the hospices of the DGNM, providing the option of participating in a general SCS theoretic part focussing on technique, history and pathophysiology, followed by comparing the different techniques and devices of the participating companies in the cadaver lab in Mülheim (close to Düsseldorf).

We cordially invite you to join us in Düsseldorf and hope you will find this annual conference interesting and stimulating as the first one.

Düsseldorf is the bustling Rhine metropolis and capital of the federal state of North-Rhine Westphalia. Arts, history, fashion, business and the lifestyle of a Rhine metropolis – Düsseldorf has a lot to offer to its visitors. Enjoy your stay in this vibrant city.

We are very pleased to welcome you in Düsseldorf and look forward to sharing and discussing interesting scientific results and new ideas with you.

With best wishes

Jan Vesper, chairman of the congress

Friday, 11th November, 2016

- SCS – state of the art
 - Databases in neuromodulation
 - DBS mechanisms, current indications, technical features
- Rheinterrasse Düsseldorf*

Saturday, 12th November, 2016

- New paradigms and waveforms in neuromodulation
 - Intrathecal drug delivery
 - Peripheral nerve stimulation (ONS, VNS, subcut NS)
- Rheinterrasse Düsseldorf*

pre-congress SCS Workshop

Thursday, 10th November, 2016

Meducation Center, Mülheim, NRW

11th ANNUAL CONFERENCE of the German Society of Neuromodulation

11th – 12th November, 2016

Rheinterrasse Düsseldorf, Germany

CHAIRMAN OF THE CONGRESS

Jan Vesper, MD

President of DGNM

Heinrich-Heine-Universität Düsseldorf

Department of Functional Neurosurgery and Stereotaxy

University Hospital

Moorenstr. 5, 40225 Düsseldorf

Germany

VENUE

Rheinterrasse Düsseldorf

Joseph-Beuys-Ufer 33

40479 Düsseldorf, Germany
